PROFESSIONAL SUMMARY

Computer Engineering undergraduate specializing in Artificial Intelligence and Multi-Agent systems. Proven track record in building end-to-end AI solutions, including RAG-based research assistants, neural localization engines, and predictive analytics platforms. Proficient in Python, FastAPI, and LangChain, with a deep focus on autonomous agent orchestration and full-stack integration.

EDUCATION

SKN Sinhgad College of Engineering, Pandharpur
B.E. in Computer Science and Engineering
Honors: Artificial Intelligence and Machine Learning
Minor: IoT (Sensor Technology)

2023 - 2027
CGPA: 9.9/10

KBP College, Pandharpur (12th / HSC)
DHK Pathshala, Pandharpur (10th / SSC)

76.33%
94.00%

Coursework: Data Structures, AI/ML Algorithms, NLP, DBMS, Operating Systems, Computer Networks.

TECHNICAL SKILLS

Languages: Python, C++, SQL, JavaScript, HTML, CSS

AI & Data: LangChain, LangGraph, Whisper v3, IndicTrans2, YOLOv8, Scikit-learn, OpenCV, Power BI

Web Dev: FastAPI, Django, React, Vite, PostgreSQL, MongoDB, OCI Cloud

Tools: Git/GitHub, FFmpeg, Docker, Arduino, Linux, Agile

PROJECT EXPERIENCE

Eduverse: Multi-Agent AI Ecosystem | *Python, FastAPI, LangGraph, MongoDB*

Architected a complex ecosystem of autonomous AI agents capable of collaborative problem-solving. Implemented stateful orchestration using LangGraph to manage long-running multi-agent workflows and data persistence.

ScholarFlow-AI: Research Assistant | *LangChain, Groq (Llama 3), OpenAI, Vector DB*

Developed an AI-driven platform for automating research paper drafting and literature review. Integrated RAG (Retrieval-Augmented Generation) with Vector databases to provide contextually accurate research support.

Anuvad-Localize: Neural Video Localization | *Whisper v3, IndicTrans2, FFmpeg, React*

Built an automated pipeline for translating video content across 22+ Indic languages. Implemented advanced audio-video synchronization and neural translation models for high-fidelity localization.

UniPrep: University Preparation Platform | *React, Django, Llama 3.1, Scikit-learn*

Created a predictive analytics platform that uses AI to forecast upcoming university exam questions. Analyzes historical patterns and data to provide structured, AI-mapped learning paths for students.

INTERNSHIPS & TRAINING

- IBM SkillsBuild AI Strategy & BI Internship (CSRBOX & AICTE) — 2026
- Summer Training Program on Autonomous AI Agents at IBM
- AICTE Microsoft Power BI Internship
- Indian Space Academy Training Program

CERTIFICATIONS

- IBM SkillsBuild: AI Strategy & BI
- Microsoft AI-900: Azure AI Fundamentals
- OCI Generative AI Professional
- OCI Generative AI Foundational
- Python for Data Science (NPTEL, Top 5%)
- DBMS (NPTEL, Top 5%)

ACHIEVEMENTS

- Contract Developer for Prime Educational Services
- Hackathon Winner at SKNSCOE 2025
- Golden Badge in Python (HackerRank)
- Spectrum UI/UX Competition Winner
- CodeChef Diamond Badge

LANGUAGES & INTERESTS

Languages: English, Hindi, Marathi, Japanese (Basic) | **Interests:** Competitive Programming, AI Bots
